

ASSET INVENTORY TRACKER™

TRACK AND STACK YOUR ENDPOINT ASSETS

Asset Inventory Tracker (AIT) is an extension of IGEL's Universal Management Suite (UMS), paving a pathway for IGEL OS to leverage the possibilities of asset management. The AIT detects and collects USB and Bluetooth assets connected to IGEL OS 10 endpoints, offering a centralized view in the UMS.

Asset Tracker

Detect and monitor the presence or absence of assets in the IGEL OS ecosystem for inventory or auditing. The IT Admin can automatically recognize missing assets and proactively take the appropriate actions to replace a peripheral device, increasing efficiency.

Asset Visibility

View an inventory of USB and Bluetooth assets in the familiar UMS Console. Connect with an asset management software to eliminate blind spots, improving security and ensuring business continuity.

Asset Management

Combine with an asset management software via the integrated programming interface for complete control of your peripherals throughout the entire lifecycle, regardless of the location of your assets.

SIMPLE

Extend the functionality of your existing UMS

SMART

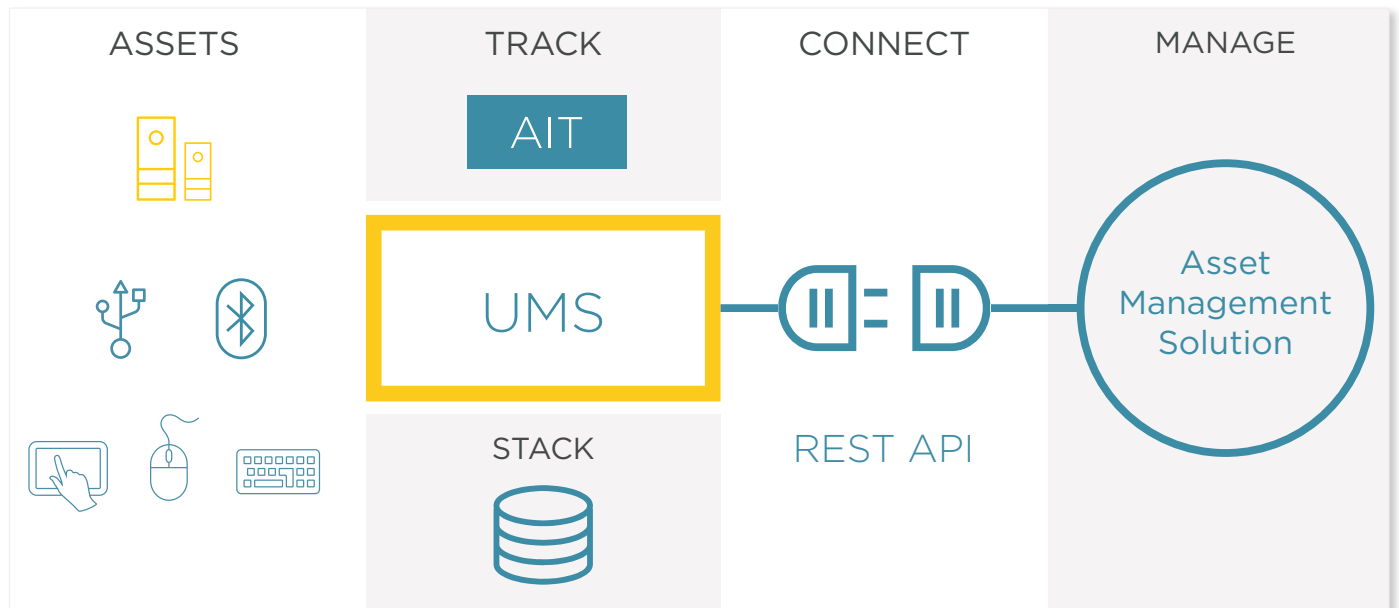

Integrates seamlessly into the IGEL management ecosystem

SECURE

Monitor your asset inventory for greater control

ASSET INVENTORY TRACKER

TECHNICAL SPECIFICATION

TECHNICAL REQUIREMENTS	
Operating System	IGEL OS Linux 10.03.100 and later releases
Management Software	IGEL UMS 5.07.100 and later releases
INTEGRATED PROGRAMMING INTERFACE	
Based on REST API, the interface connects the UMS database and a conventional asset management software for advanced functionality such as filter and view, history, customized status updates, alerts.	
COMPATIBILITY	
Hardware Client	IGEL Universal Desktop Thin Client and Zero Client IGEL UD Pocket
Software Client	Third party endpoint devices converted with IGEL Universal Desktop Converter 3
Assets	USB and Bluetooth connected devices
LICENSING	
Subscription Model	Subscription for a 10-license pack (minimum quantity) for a duration of 1 year or 3 years.
License Management	Activate a license subscription, extend subscription duration via IGEL's Activation Portal https://activation.igel.com
