IGEL UD9 THE ALL-IN-ONE FOR THE HIGH-PERFORMANCE WORKER

Integrated into a 21.5" widescreen display, the UD9 provides numerous interfaces and integrated features such as touchscreen, WLAN or a smartcard reader. The compact all-in-one thin client supports a wide range of applications and due to its quad-core processor it allows high-performance access to all major central computing infrastructures.

- 21.5" LCD monitor (55 cm) Increased user comfort and productivity
- All-in-One Thin Client Display with integrated thin client, small footprint, and optimized design
- Touchscreen display (optional) Use without keyboard and mouse, e.g., as a kiosk or PoS
- Integrated WLAN module (optional) Use of the latest wireless standard enables optimal connectivity even without wired network infrastructure
- Integrated smartcard reader (optional) Excellent for highly secure two-factor authentication, shared desktops or roaming users
