

IGEL Adds LG Business Solutions to Growing Portfolio of Technology Partners

IGEL expands IGEL OS device support to include LG monitors and all-in-one thin client devices

San Francisco, Jan. 24, 2019 – [IGEL](#), a world leader in endpoint management software for the secure enterprise, has formed a new alliance with LG Electronics USA Business Solutions. Under the terms of the agreement, IGEL is expanding IGEL OS device support to include LG’s family of high-definition monitors and all-in-one thin client devices.

“LG is widely recognized as one of the world’s leading innovators of display technologies and solutions, and we are proud to be adding them to our growing partner ecosystem,” said [Simon Clephan](#), Vice President of Business Development, IGEL. “Our validation of LG’s innovative IPS Displays and all-in-one thin clients for the IGEL OS is just one new example of how we are teaming with leaders in this space to bring solutions to market that are simple to manage, secure and reliable, and drive high performance and efficiency within the enterprise.”

LG products that will be supported by the IGEL OS include the 24-inch all-in-one thin-client monitor (model 24CK550W), the 38-inch all-in-one Curved UltraWide™ Thin Client Monitor (model 38CK950N) and the Thin Client Box (model CK500). The IGEL OS’ broad feature set supports remote access and reliable multi-protocol connectivity to VDI environments including Citrix, VMware and Microsoft via the LG monitors and all-in-one thin client solutions.

“IGEL’s software-defined endpoint management solutions are truly changing the way enterprises approach end-user computing,” said Clark Brown, vice president, LG Business Solutions. “Partnering with IGEL will help expand our enterprise business, and we look forward to teaming with our channel partners to provide their end user customers with an innovative, secure and high-performing endpoint computing experience.”

LG Electronics is a Gold-level sponsor for the 2019 IGEL DISRUPT End User Computing Forum events in Silicon Valley, Calif. and Munich, Germany. For more information visit <https://disruptEUC.com>. About IGEL

IGEL delivers powerful unified endpoint management software that is revolutionary in its simplicity and purpose-built for the enterprise. The company's world-leading software products include the IGEL OS™, Universal Desktop Converter™ (UDC), IGEL Cloud Gateway™ (ICG), IGEL UD Pocket™ (UDP) and Universal Management Suite™ (UMS). These solutions enable a more secure, manageable and cost-effective endpoint management platform across nearly any x86 device. Additionally, IGEL's German engineered and manufactured thin, zero and all-in-one client solutions deliver the industry's best warranty (5 years), support (3 years after end of life) and management functionality. IGEL enables enterprises to precisely control all devices running IGEL OS as well as Windows OS from a single dashboard interface. IGEL has offices worldwide and is represented by partners in over 50 countries. For more information on IGEL, visit www.igel.com.
