

Next generation mobile thin client for today's workers.

INTRODUCING THE 14w THIN CLIENT NOTEBOOK FOR VDI EVERYWHERE.

Notebooks for VDI have tended to be traditional products that have been repurposed. That is, until now.

The new 14w Thin Client Notebook is made with enterprise users in mind. From its smart, sleek design to its invaluable features and light weight, the 14w is the perfect VDI endpoint.

The 14w can be powered by almost any thin client operating system and delivers your VDI desktop, whether RDS, Citrix or Horizon View to wherever you are.

The 14w also boasts a 720p webcam with dual microphones, perfect when you are in a Skype for Business or Cisco Jabber conference.

And let's not forget its durable design—the 14w is built to handle the most common mishaps. The 14w makes the perfect, mobile enterprise VDI endpoint.

HEAD OF THE PACK

The 14w is the smart, yet simple VDI sidekick your users have been waiting for. The 14w makes working in VDI environments more efficient than ever before. Plus, its 720p front-facing webcam with dual microphones is ideal for video conferences, and presentations. With the versatile 14w Thin Client Notebook, your users can increase their productivity wherever they are.

BETTER APPS & BETTER BATTERY

Designed to eliminate tech-stress, the 14w delivers the features, speed and performance needed to help today's and tomorrow's bright minds. With 11 hours* of battery life, the 14w will last from the start to end of work. The fast charging of the 14w means that you are almost never off the ball.

SLEEK & STURDY

The 14w brings the “wow” when it comes to smart, stylish VDI tech. It delivers a sleek, clean and modern design chock-full of the best innovative features. Pair all that with its water-resistant keyboard and anti-peel keys, and you have a premium mobile thin client sturdy enough to handle any enterprise user catastrophe.
