SpeechWrite 360

Delivering efficiencies through voice

## LEGAL

Our solutions allow law firms to be more **competitive, flexible, efficient** and **productive** whilst also **reducing costs.**

About us

SpeechWrite Digital are specialists in providing dictation and voice recognition solutions for the legal market.

Customers remain at the heart of everything we do. We pride ourselves on exceptional customer service which remains the number one reason why thousands of legal professionals choose to work with us each year.

PROJECT MANAGEMENT
Delivering effective technology projects with measurable results

1. Consultation
A FREE consultation service providing tailored solutions. We listen, learn and collaborate to support you through every stage of the process.

2. Deployment
We configure to your organisational set-up and agree an implementation plan with objectives and time-frames, allowing a smooth transition to 'go-live'.

3. Training
Professional training services to ensure you maximise your return on investment and drive fast adoption for your users.

4. After sales support
Our expert support team offer on-going after sales support. We are a friendly and helpful voice at the end of the phone.

"99% of users last year rated us as '**Excellent**' for customer experience."

"A big thank you to all the support staff... this is why I buy products, they can be brilliant to run but it is the aftercare help and support that is the main winner of any product... "

Diane Abraham – IT Manager Brighouses

"The best support team we have ever worked with. "

Andy Clark – ICT Manager Wansbroughs Solictors

BENEFITS OF

SpeechWrite 360

Streamline your legal documentation and admin process by using SpeechWrite 360. Seamlessly link authors and transcribers to speed up document turnaround and boost productivity for your firm.

Simple billing process
Single quarterly bill which includes all services from SpeechWrite 360 including hosting.

Quick and easy set up
Users can be set up in under 10 minutes ready to dictate or receive work.

Flexible mobile working
Dictate using any current hardware device at any location at any time.

Easy to use
Point your browser, log in and start using.

No installation or costly infrastructure
SpeechWrite 360 provides a cloud first, mobile solution. It is easy to deploy, with no requirement to install software locally or provision expensive infrastructure.

Scalable solution
Easily add and remove users or modules as your requirements evolve.

Future proofed
SpeechWrite host, maintain, update and manage system and workflow admin, meaning you are always on the most up to date system and future proofed.

Unrestricted data access
Access your data at any time without restriction.

Highest Security Standards
The SpeechWrite 360 platform is UK hosted entirely in the cloud on Amazon Web Services. The AWS cloud infrastructure offers the most powerful, flexible and secure cloud-computing environment available today.
AWS services also comply with the General Data Protection Regulation (GDPR).

Integration
SpeechWrite 360 integrates directly into your existing workflow and case management system, creating an end to end process and workflow solution

Templates
Dictate directly into branded documents with SpeechWrite 360, creating an efficient process and professional image for your organisation.

Delivering efficiencies through voice

INTEGRATION

SpeechWrite 360 easily and quickly integrates directly into your existing applications, creating an end to end process and workflow solution.

Seamless integration with SpeechWrite 360 and your case management system significantly improves the efficiency and productivity of document creation.

SECURITY

The SpeechWrite 360 platform is UK hosted entirely in the cloud on Amazon Web Services.

The AWS cloud infrastructure offers the most powerful, flexible and secure cloud-computing environment available today. AWS is compliant with frameworks accreditations including ISO 27017 for cloud security, ISO 27018 for cloud privacy, PCI DSS Level 1, and SOC 1, SOC 2, and SOC 3.

AWS services also comply with the General Data Protection Regulation (GDPR).

VOICE

SpeechWrite 360 brings you the next generation of voice recognition.

See text appear as you talk

Fully integrated within your workflow solution, 360 voice allows you to dictate from any device, electronically sign, send in real time, track and edit your document all within the same system.

Furthermore, complete forms, send email, search the Web and dictate directly into any PC application including your case management system, saving time and streamlining your internal processes. Authors are also able to automatically populate paragraphs of pre-defined text using one word pre-configured commands.

Automated transcription

Transcribers receive completed documents that have been automatically transcribed into text, eliminating the need for typing. Transcription workflows are more efficient, saving time for transcribers and improving the turnaround time of documents.

THE
SpeechWrite 360
SOLUTION

WORKFLOW

Our workflow management solution has been developed by and for fee earners, putting usability, security and organisational efficiency at the heart of the platform.

Dictate, track, edit and approve tasks on iOS, Android and desktop. SpeechWrite 360 delivers the full dictation workflow.

MOBILE

Dictate, review, edit and approve on the go

Record dictations using the SpeechWrite 360 mobile app or telephony – anywhere, at any time and benefit from maximum security and reliability.

Using the mobile app legal notes, legal correspondence and reports can be reviewed, edited and signed by fee earners on the go. SpeechWrite 360 allows fee earners to focus on clients by delivering solutions when or where they need them.

REPORTING

Access real-time data driven metrics to provide insight into organisational workflows and drive meaningful process improvement.

Keep track of your workflows

User dashboards allow managers to track their live workflows, whilst also delivering insights that help drive efficiency.
