10ZiG

IGEL READY

Why Choose 10ZiG as Your IGEL OS Endpoint Solution?

HARDWARE WITH POWER, SPEED, AND PERFORMANCE

10ZiG performance hardware is designed from the ground up for ever-changing user experience demands. It is assembled locally with the highest quality stateless components. For over 17 years, 10ZiG's sole focus has been Thin & Zero Client Endpoints, and that focus makes us industry specialists. Thin & Zero Client Endpoints and Management is all we do!
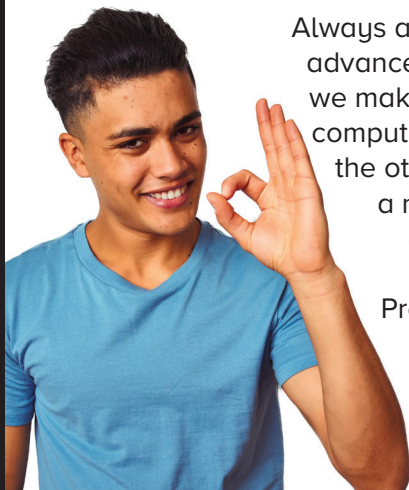

IGEL OS SUPPORT THAT REALLY DELIVERS

10ZiG devices are designed for all leading EUC, VDI, and Digital Workspaces providers including VMware, Citrix, Microsoft, Amazon WorkSpaces, Parallels, and Teradici, and fully support IGEL OS. From task workers to power workers, we have a hardware endpoint that is customizable for IGEL OS support.

CUSTOMER SERVICE LIKE NO OTHER

Always a front-runner in many VDI advances, 10ZiG's promise is that we make our product fit into your computing environments and not the other way around. We offer a no-obligation, flexible test device program including personalized follow-up. Pre-and-post Sales Support and Tech Support availability keep us cutting-edge.

ADVANCE WARRANTY WITHOUT HASSLE

The 10ZiG range of x86 hardware covers dual to quad screen, is TAA compliant, and comes equipped with Intel and AMD processors. DisplayPorts, HDMI, Gigabit ethernet, Fiber (SFP ready), and Dual Band Wireless are just a few options that come with readily available devices, backed by our 3-Year Advance Replacement warranty. We like to make things easy and efficient!

Test drive the Power, Speed and Performance with our flexible Demo Device program.
