

Easy to carry, small form factor that will help you save space.
Budget friendly with 4K video streaming and low power consumption.

CD8805 Thin Client

IDEAL FOR:

- Health & Dental Clinics
- Training & Education
- State & Local Government
- Manufacturing & Industrial
- Office & Commercial Settings

Part Number	Part Description
G0900XXX	CD8805, Copper Thin Client, No CAC

KEY FEATURES

Processor
Intel J4125 processor, (4C/4T, 4M Cache, 2.0GHz up to 2.7GHz)

Memory Capacity/Type
Up to 8GB DDR4 2400Mhz

Display/Resolution
Intel UHD Graphics 600 / 12 EU / 750MHz
Dual: 4K @ 60 FPS

I/O Physical
HDMI 1.4b x 2
USB 3.0 x 4
Audio Jack (HP&MIC) x 1
DC in Port x 1
RJ45 x 1

Storage
128 GB SSD

Networking
Built-in 2.4G and 5.8G dual-band WIFI
Bluetooth 4.0
1x Gigabit Ethernet (Realtek RTL8168/8111)

Operating System
ClearCube Cloud Desktop OS
Windows 10 IoT
Linux

TECHNICAL SPECS

Temperature
Operation: -10 to 45 °C, Humidity 30%-90%
Storage: -20 to 60 °C, Humidity 10%-90%

Operating Relative Humidity
20% to 80% non-condensing

Power Supply
12V-2A 24W external power adapter
Input: 100-240V AC-50/60Hz
Output: DC12V/2A

Gross Weight
1.77 lbs (256gr)

Dimensions
4.5 x 4 x 1.7 inches

Physical Characteristics
Plastic & Aluminum

Regulatory Compliance
CE/FCC/RoHS

Security
Kensington Slot for Kensington Lock

Add-Ons
VESA Mount

BENEFITS

Low Power Consumption

Small Form Factor

Features
CloudDesktop OS

Supports VMware® Horizon
with Blast Extreme, CITRIX®
HDX, Microsoft® RDP

Support for Bluetooth 5.0, Low
Energy (BLE)

VESA and under the
desk mount

Rear View

▶▶▶ COST EFFECTIVE

Maintaining consistency on a large scale can be difficult for companies who want to leverage a global workforce and third party partners. The CD8805 Thin Client accommodates a diverse set of end users and delivers a secure and efficient device on a centralized and VDI infrastructure. As technology scales within the company, the CD8805 is agile enough to scale with your changes in the infrastructure, data center, and workloads.

GREAT FOR THE OFFICE

Built to look great and still be robust and sturdy, this above-average Intel NUC Mini PC is small enough to carry around and weighs slightly more than a smart phone. Pair it to a monitor, keyboard or mouse or connect it to your television or projector for large-screen viewing and multi-tasking. This powerhouse is ready to take on Microsoft Office, Sharepoint, AND Zoom calls.

FUN WITH MEDIA AND CREATIVITY

The ultra-quiet fan means easy streaming and this ideal device is a balanced mini PC that allows work to get done. This exceptional computer is ideal for users who require a little extra power for applications and programs but don't want to pay an exorbitant price. Its combination of plastic and aluminum make it durable and the mount makes it convenient to place on manufacturing floors.

GREAT USER EXPERIENCE

Users will have a smooth and high-quality experience which allows for watching video, handling high-resolution sites, and the active cooling allows the device to avoid overheating. The built-in WiFi means less cables to trip over or hide. The quad-core Intel Celeron processor allow your company to work smarter and faster from design to distribution.
