

ENABLE SECURE AND PRODUCTIVE VDI AND DAAS WITH WORLD-CLASS HP THIN CLIENTS POWERED BY IGEL OS

HP INC and IGEL - A turnkey solution

HP t430, t540 and t640 thin clients with IGEL OS pre-installed offer secure, high-performance and easy to manage access to virtual applications, desktops and data.

ENDPOINT SECURITY

An array of integrated security capabilities on the HP thin client and within IGEL OS help protect the endpoint from malware and tampering.

EASY TO ORDER

As an IGEL Ready Strategic partner, HP offers dedicated SKUs for HP t430, t540, and t640 thin clients pre-installed with IGEL OS.

ENHANCED MANAGEMENT AND IT ADMIN EXPERIENCE

Quick and easy implementation and remote management that scales up to 300,000 dispersed IGEL OS-powered HP thin clients or any compatible x86-64 device with the IGEL Universal Management Suite.

IT JUST WORKS!

For a productive user experience in healthcare, retail, and finance, IGEL OS ensures compatibility with the latest enterprise software, VDI and DaaS clients, and peripherals through the vast ecosystem of IGEL Ready partners.

USER EXPERIENCE IS EVERYTHING

GREATER CHOICE AND FLEXIBILITY

Users can choose from proven HP thin clients pre-installed with IGEL OS
