OS TO Cloud

- SSO Integration
- MFA Support
- Network Security
- 3rd Party ISV Integrations
- Tap & Go Smart Cards

SECURE OS

- Chain of Trust
- Read Only OS
- No local Data
- Modular Design
- Patch Management

BELOW THE OS

- BIOS update
- Firmware Security
- Zero Trust Supply Chain
- Remote Management
- BIOS Recovery

Lenovo

Hardware emerges as the new frontier of cyber attacks!

63%

Of companies have experienced a breach due to a hardware manipulation

75%

Of organizations plan to implement a hybrid work model

Existing security tools do not verify whether the hardware (HW) and USB controls are an all-or-nothing decision.
